Beauty and Performance: Bring the Outside In

Why Choose the Heritage Vinyl Doors by AMSCO?

For more than 75 years, AMSCO Windows & Doors has helped homeowners make their homes a masterpiece. Heritage Vinyl Doors represent our top-of-the-line vinyl sliding patio doors, designed to combine timeless beauty with exceptional performance. Ideal for new construction, remodels, and retrofit projects, each door delivers the engineering precision and craftsmanship you've come to expect from AMSCO.

3-PANEL

2-PANEL

4-PANEL

Your Home Is as Unique as You Are

So your patio door should be, too. Choose from multiple configurations and sizes, ranging from cozy 2-panel designs to expansive 4-panel layouts up to 16 feet wide and 8 feet tall, to perfectly suit your space and transform your home into a light-filled, welcoming retreat. You can even opt for a 10-foot-wide two-panel door to create a truly grand entrance.

Sizes & Configurations

- **Flexible Layouts:** Choose from 2-panel (OX or XO), 3-panel (OXO, XXO, OXX), or 4-panel (OXXO) arrangements to fit your home's layout and lighting goals.
- **Expansive Dimensions:** Create dramatic glass walls up to 16 feet wide and 8 feet tall, or opt for a 10-foot-wide two-panel design for a refined entryway.
- **Built for Any Project:** Standard nail-fin frames support new construction, while optional flush-fin frames make replacements and retrofits simple and seamless.

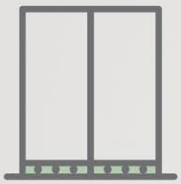
Built for Living, Built to Last

The Heritage Vinyl Doors deliver smooth performance, lasting durability, and versatile design. Built for real life, AMSCO doors glide effortlessly, seal tight, and are made to last, backed by decades of expertise.



Heavy-duty rollers & ball bearings

Narrow sash/frame for bigger view

Warm-edge spacer reduces condensation

Everyday Comfort & Effortless Performance

- **Heavy-Duty Rollers:** Quiet, effortless glide, even in larger sizes.
- **Narrow Sash/Frame:** More glass, more light, bigger views.
- **Warm-Edge Spacer:** Less condensation, better insulation, year-round comfort.

Fusion-welded corners for strength & seal

2-point lock

Flush-fin frame for remodels

Engineered Strength & Lasting Security

- **Fusion-Welded Corners:** Rigid, weather-tight, energy-efficient frame.
- **Two-Point Lock:** Dual hooks for a secure, dependable seal.
- **Flush-Fin Frame:** Clean, retrofit-ready design for remodels.

Elevated Hardware

Thoughtfully designed to complement today's interiors, Heritage hardware pairs a clean profile with everyday functionality. Hardware colors match the frame color on white, taupe, and black vinyl doors. Bronze and painted interior doors are paired with neutral black hardware. Additional keyed finish options include white, black, oil-rubbed bronze, brushed nickel, antique brass, and polished brass.

Secure Locking

Two-Point Locking System Standard,
Available One-Point Locking System

Heritage Vinyl Doors feature a mortise locking system engineered for smooth operation and dependable security. The standard two-point locking system adds enhanced engagement for greater peace of mind, while the available one-point locking system provides a streamlined option for select applications.

- Unique bolt-style mortise lock design
- Opposing locking points on standard two-point system
- Coastal hardware available

Glass Options

High-performance, energy-efficient glass options protect your home from temperature extremes.
All of our glass options feature warm-edge spacer technology, reducing thermal transfer and condensation.

*STC ratings (31 – 35) are based on DS tempered dual-pane configurations including: 3/4" IG (Insulated Glass), 1/4" laminated IG, or 1" IG.

U-Value

Measures how well the window/door prevents heat from escaping the home. The lower the number, the more efficient the window/door is at preventing heat transfer.

Solar Heat Gain Coefficient (SHGC)

Measures how well the window/door blocks heat from the sun. The lower the number, the more efficient the window/door is at blocking the sun's heat.

Visible Transmittance (VT)

Measures the amount of visible light coming through the window/door. The higher the number, the more efficient the window/door is at allowing light in.

NOTE: Data shown is for comparison purposes only and is accurate as of May 7, 2023. Performance data is for overall door units and not glass only. Data presented is a range based on DS Tempered dual pane 3/4" IG, 1/4 DS Tempered dual pane 1" IG, without grids, super spacer, and argon fill. Other options may affect performance values including values that may be outside of the ranges shown here. Please contact your Authorized AMSCO Dealer for actual values of units. All values are certified through AAMA or NFRC.

Certified Quality

Every AMSCO product meets or exceeds the criteria for critical quality standards, providing our customers with the comfort and assurance that they are investing in the best windows and doors possible for their homes.

With more than 75 years of experience to support our promise, we can assure our customers that we are here to help and will correct any issues that arise. To show our customers that we are committed to our mission, all AMSCO Windows products are backed with a limited warranty.

Industry Alliance

In addition to our own stringent quality control standards, AMSCO is a proud member of the Fenestration and Glazing Industry Alliance (FGIA) and the National Fenestration Rating Council (NFRC) and has earned the right to carry the Energy STAR label, a program sponsored by the Department of Energy. These organizations set the standards for the entire window and door industry.

MADE IN THE USA

About Us

Founded in 1949, AMSCO Windows is a privately held company built on quality, reliability, and a clear understanding of the needs of contractors, architects, and homeowners. That perspective continues to guide everything we do, helping us deliver products that bring lasting value, comfort, and peace of mind to every project.

Many of AMSCO's dedicated employees have helped grow the company through decades of service. Their long-term commitment supports a stable work environment, dependable craftsmanship, and a company you can count on now and in the future.

Our 650,000-square-foot manufacturing facility in Salt Lake City, Utah, features an on-site tempering furnace, multiple insulated glass lines, and state-of-the-art equipment that help ensure a consistent and efficient manufacturing process.

The AMSCO Guarantee

Simply put, we back our windows with a warranty that gives you peace of mind. Our limited warranty covers any defects in materials or workmanship in our vinyl windows and doors for original homeowners.* Our warranty process is administered by our local dealer to ensure your satisfaction. For complete warranty details, contact your authorized AMSCO dealer, or visit us online at www.amscowindows.com.

*If the product is installed in a single-family residence that you own and occupy at the time of initial installation, this warranty remains in force for twenty (20) years from the date of installation. If you sell your residence or it becomes occupied by any person other than you, the warranty will expire at that time. Contact your certified dealer for information regarding extended warranty options.
